Goal

I subscribe to a higher standard than winning and believe that an educator should personify servant-leadership. My goal is to do far more than is required of me, to execute my responsibilities in an ethical manner, to demonstrate excellence in my life, and to make a difference in the lives of the young people whom I serve.

“Success is the peace of mind that comes as a direct result of knowing that you did your best to become all that you are capable of becoming.” – John Wooden
