We Make Esports Free & Easy

Competitive gameplay, the most popular titles, and a full suite of features, PlayVS is where amateur esports lives.

SAVE UP TO
15
HOURS
A WEEK

More Time With Students, Less Time With Logistics

Our platform does the work of practice, scheduling, travel, and scouting. Eliminating these tasks saves coaches about 15 hours, or more, per week.

Our Partners Empower Our Players

From the NFHS to state associations to the biggest game publishers in the world — our relationships enable us to provide an exclusive, premium esports experience. We handle the work so you can focus on play.

Scholastic Growth and the Collegiate Path

Engaged students perform better (e.g. better test scores & behavior). Esports appeals to a wider audience than most sports. Colleges are offering tens of millions of dollars in scholarships every year.

The Affordable High School Sport

Engage and impact just as many students, for less.

*Program costs are based on annual operating budget data collected from small-to-midsize school Athletic Directors in the PlayVS community.

Reach More Students, For Less

Esports is for any student who can use a computer. Make your school's athletic department a big tent for a fraction of the cost of other sports.

Esports

\$80

per student per school year

Fees Assumes our Platinum plan with 25 players

- ✓ No Travel Required
- ✓ No Risk Of Long-Term Physical Harm
- ✓ Millions In College Scholarship
- ✓ Direct path to fast growing industry (gaming)
- ✓ Open to All Students Regardless of Gender Or Ability

Traditional Sports

\$693

per student, per sport, per school year

Fees Calculated on Average Cost Per Season Of U.S. High School Sports

- ✓ Millions in College Scholarships
- No Risk Of Long-Term Physical Harm
- No Travel Required
- Open to All Students Regardless of Gender Or Ability
- Millions In College Scholarship

Source: The National Youth Sport Survey (Aspen Institute)

“This year we spent nearly \$50,000 on our football program, over \$80,000 on our girls and boys basketball teams combined. Starting our esports program cost \$2,000 and allows us to include and interact with students who otherwise would not be involved in co-curricular activities.”

From an Athletic Director in Connecticut

PlayVS Unlocks Esports

Our team is dedicated to providing an optimal, painless esports experience that frees you up to focus on your program and your players.

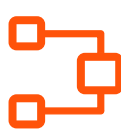

Premier Matchday Experience

No worrying about scheduling. No wondering who your opponent is. You show up. You play your match. We take care of the rest.

Scrimmage Makes Perfect

Matchdays are for performance. Scrimmages let you work on strategies and communication in a lower-stakes, but still competitive, environment.

Built-in Competitive Frameworks

We support all types of competition for our scholastic leagues from hybrid-swiss to one-off tournaments to round robin-style group play.

Roster Management Tools

Our platform helps you make substitutions, configure your roster, keep track of performance, and keep in contact with your team.

Historical Stats & Standings

Track player progress with our detailed statistics. Keep track of where you stand with your state and regional rankings.

Student Privacy Pledge

As a proud signatory of the Student Privacy Pledge, we are committed to respecting the privacy of our players and their schools.

Scouting Tools

Who's dangerous in front of goal? What junglers do you need to be aware of? Find these answers and more with our range of scouting tools.

Direct Publisher Partnerships

Riot, Epic, Psyonix, and HiRez all entrust us to integrate their titles with our product. What's that mean for you? More stats. Easy match days.

Customer Support

Our esports specialists are standing-by to help you every step of the way. From on-boarding to activation, to match-days to IT, they're here to help.
