

Administrators:

Thank you for your patience as we have worked through the alignment process for the coming 2022-24 alignment cycle. As we continue to navigate the worldwide pandemic, our member schools have been impacted individually and collectively.

The TAPPS staff, Athletic Executive Committee and the Executive Board have reviewed the enrollment numbers submitted by our member schools to determine placement for the coming two year cycle. Please review the information and if discrepancies are found, please reach out to our office so we can work through potential situations.

There is a lot of information posted on the page linked below and there are processes outlined in the event changes are to be made. Please be aware of the following dates and information as we all begin making plans for the 2022-24 school years.
