SCOTT MOE

TEACHING/COACHING PHILOSOPHY

To help students become the best that they are capable of becoming both individually and collectively. In my programs, I work to create an environment that forges buy-in for great enthusiasm, a lot of hard work, selflessness, and doing so with class. My passionate and competitive disposition, my action and detailed oriented nature, along with my foundational view of developing character through sports has led to a history of creating successful programs and students.
