

Football Playoff Qualifiers - 11 Man Division II

11 Man Division II

12 teams will qualify for the playoff pool

The pool will consist of:

1st, 2nd, and 3rd place teams from each of the 4 districts (12).

Once the pool of playoff qualifiers has been established, they will be divided into two 6 team brackets (Division II Large Schools and Division II Small Schools).

The brackets will be populated in the following order:

- 1) Division II Large School Bracket (Highest Enrollment)
The highest enrollment school from each district (4 teams)
 - 2) Division II Small School Bracket (Lowest Enrollment)
The lowest enrollment school from each district (4 teams)
 - 3) The remaining 2 highest enrollment schools will go to the Large School Bracket and the 2 lowest enrollment schools will go to the Small School Bracket.
- Teams from Districts 1 and 2 will populate the top half of the bracket and teams from Districts 3 and 4 will populate the bottom half of the bracket.
 - Teams from the same district will not play each other in the first round.
 - Byes will go to the districts that populated 2 schools to that bracket.
