

Football Playoff Qualifiers - Six-Man

Six-Man Division III

16 teams will qualify for the playoff pool

The pool will consist of:

- 1) 1st and 2nd place teams from each of the 6 districts (12); plus,
- 2) The 4 teams with highest wild card points average from the 8 teams listed below:
 - a) The 3rd place teams in districts 1 through 5;
 - b) The 3rd and 4th place teams in district 6;
 - c) The independent team

Once the pool of playoff qualifiers has been established, they will be divided into two 8 team brackets (Bracket 4 and Bracket 5).

Bracket 4 (Highest Enrollment) - 8 teams comprised of:

The highest enrollment school from each district (6); plus,
The next 2 highest enrollment qualifiers.

Bracket 5 (Lowest Enrollment) - the remaining 8 teams

Six-Man Divisions I and II

12 teams will qualify from each division (24 total) split into three 8 team brackets

Playoff pool qualifiers:

Division I

- 1st and 2nd place teams from each of the 4 districts (8); plus,
- The 4 teams with highest wild card points average from the remaining teams and the independent

Division II

- 1st and 2nd place teams from each of the 4 districts (8); plus,
- The 4 teams with highest wild card points average from the remaining teams

Once the pool of playoff qualifiers has been established, they will be divided into three 8 team brackets (Bracket 1, 2 and 3).

Bracket 1 (Highest Enrollment) - 8 teams comprised of:

The two highest enrollment schools from each Division I district (8) from the pool of qualifiers.

Bracket 2 (Medium Enrollment) - 8 teams comprised of:

The 4 remaining Division I qualifiers (lowest enrollment); plus,
The highest enrollment schools from each Division II district (4).

Bracket 3 (Lowest Enrollment) - the remaining 8 teams of the Division II qualifiers.
